

SnapLogic Enterprise Integration Cloud

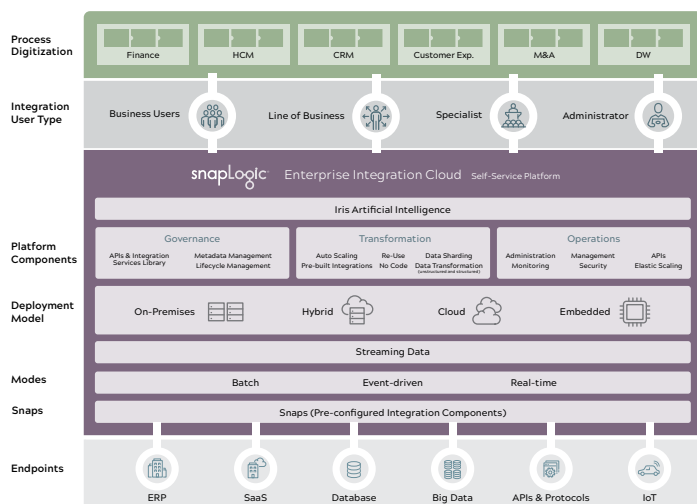

The SnapLogic Enterprise Integration Cloud (EIC) is a single platform for application, data, and analytics integration. By providing rapid development via a robust designer interface and requiring no hand coding and schema enforcement, developer productivity vastly increases. The EIC also is highly intuitive, offering self-service integration capabilities to non-developers.

- **Leader in the Gartner Magic Quadrant for Enterprise iPaaS for three years in a row**
- **Fast time-to-value with pre-defined patterns for key business processes**
- **The ability to handle the most complex cloud-to-cloud, cloud-to-on-premises, and hybrid use cases**
- **Iris Artificial Intelligence to enhance self-service for non-developers and boost IT productivity**

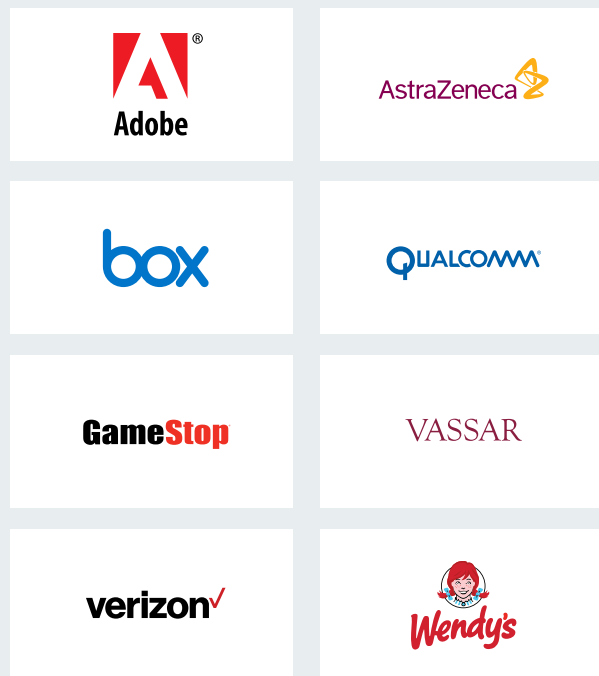

With SnapLogic, users eliminate traditional ETL and ESB tools segregated across teams, removing data silos so the entire organization can rapidly access and integrate data and applications to make well informed, data-driven decisions.

“SnapLogic delivers on the promise of the connected enterprise. SnapLogic’s platform makes app and data integration fast and easy. With the SnapLogic platform, we’ve completed more than 200 integrations.”

Paul Chapman, CIO at cloud content management leader; Box
